Reason there are fewer than three comparable properties for a unit type or class

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:
[*Insert N/A if there were three comparable properties*]

The property is a new apartment to be constructed to current building standards and specifications in a development that is yet to be completed. In the six months before the estimated selling price was determined, fewer than three sales of apartments within two kilometres of the property of a similar standard and condition and the same build status (sold off the plan in a development yet to be completed) were identified; the sale identified is listed above, and sales not yet settled or publicly recorded were included in the search. Sales of apartments in completed buildings in the area were not taken into account because they are of an older build status and were constructed to earlier standards and specifications, and are not comparable to the property (Director's Guidelines, paragraphs 18 and 21).

Sale outcome

The sale price of each property within the unit type or class covered by this PPS must be included in this section within seven days after the unconditional sale unless an application for an exemption is pending or an exemption has been granted.

[*Insert N/A if there were three comparable properties*]

The property is a new apartment to be constructed to current building standards and specifications in a development that is yet to be completed. In the six months before the estimated selling price was determined, no sale of an apartment within two kilometres of the property of a similar standard and condition and the same build status (sold off the plan in a development yet to be completed) was identified, including sales not yet settled or publicly recorded. Sales of apartments in completed buildings in the area were not taken into account because they are of an older build status and were constructed to earlier standards and specifications, and are not comparable to the property (Director's Guidelines, paragraphs 18 and 21).

Sale outcome

The sale price of each property within the unit type or class covered by this PPS must be included in this section within seven days after the unconditional sale unless an application for an exemption is pending or an exemption has been granted.

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

The property is a new apartment to be constructed to current building standards and specifications in a development that is yet to be completed. In the six months before the estimated selling price was determined, fewer than three sales of apartments within two kilometres of the property of a similar standard and condition and the same build status (sold off the plan in a development yet to be completed) were identified; the sale identified is listed above, and sales not yet settled or publicly recorded were included in the search. Sales of apartments in completed buildings in the area were not taken into account because they are of an older build status and were constructed to earlier standards and specifications, and are not comparable to the property (Director's Guidelines, paragraphs 18 and 21).

If there were fewer than three, but one or two, comparable properties, these must be included below.

These properties were used to help determine the estimated selling price.

Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

The property is a new apartment to be constructed to current building standards and specifications in a development that is yet to be completed. In the six months before the estimated selling price was determined, fewer than three sales of apartments within two kilometres of the property of a similar standard and condition and the same build status (sold off the plan in a development yet to be completed) were identified; the sale identified is listed above, and sales not yet settled or publicly recorded were included in the search. Sales of apartments in completed buildings in the area were not taken into account because they are of an older build status and were constructed to earlier standards and specifications, and are not comparable to the property (Director's Guidelines, paragraphs 18 and 21).

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
