Reason there are fewer than three comparable properties

✓

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The subject property is a unique property in that there is a main residence, and a bungalow. The main residence contains four bedrooms, two bathrooms and one living space. The bungalow contains one bathroom. Given this, along with taking into consideration that there is a fixed term lease in place, it was deemed that there are no comparable properties located within a 2km radius sold within the last six months.

The estimated selling price range was determined by taking into consideration the subject property's current condition, land size, location and the current market environment.
